

## **SCDI Catalyst: August T. Jaccaci**

Jaccaci has worked as a futurist, artist, teacher, and international consultant to companies both large and small helping them develop successful business strategies using his METAMATRIX future mapping methodology. In 1995, Jaccaci and Susan B. Gault founded the Social Architects Associates and began their discovery of a natural evolutionary process to charitable and profit-making enterprises.

Gus Jaccaci was a personal friend of Stuart C. Dodd. They both attended annual workshops at the Creative Problem Solving Institute, University of New York at Buffalo. Gus had the opportunity to video tape and interview with Dr. Dodd before his death. In the mid-90s, Gus was instrumental in bringing together the founder of the Institute and the editor of the DML.

### *2008 Thomas Jefferson Returns*

Letters received and recorded by Gus Jaccaci

“Mr. Jefferson is the author of the Declaration of Independence and the social architect of the Bill of Rights is a primary guardian of the American Soul. Under the terrible pressure of losing the American Experiment in self-governance to the forces of fear trending toward fascism, Mr. Jefferson has returned to empower individual Americans to rise up to their full responsibility to protect their souls and their personal and community potential for truth, beauty and goodness which together express love, the meaning and destiny of America.

Mr. Jefferson’s writings received at various moments on and after July 4th within the year 2007 are meant to be letters to all humanity. They are, however, focused on aspects of the American soul lest it journey farther from planetary potential toward planetary problem.”

### *Jefferson 2040*

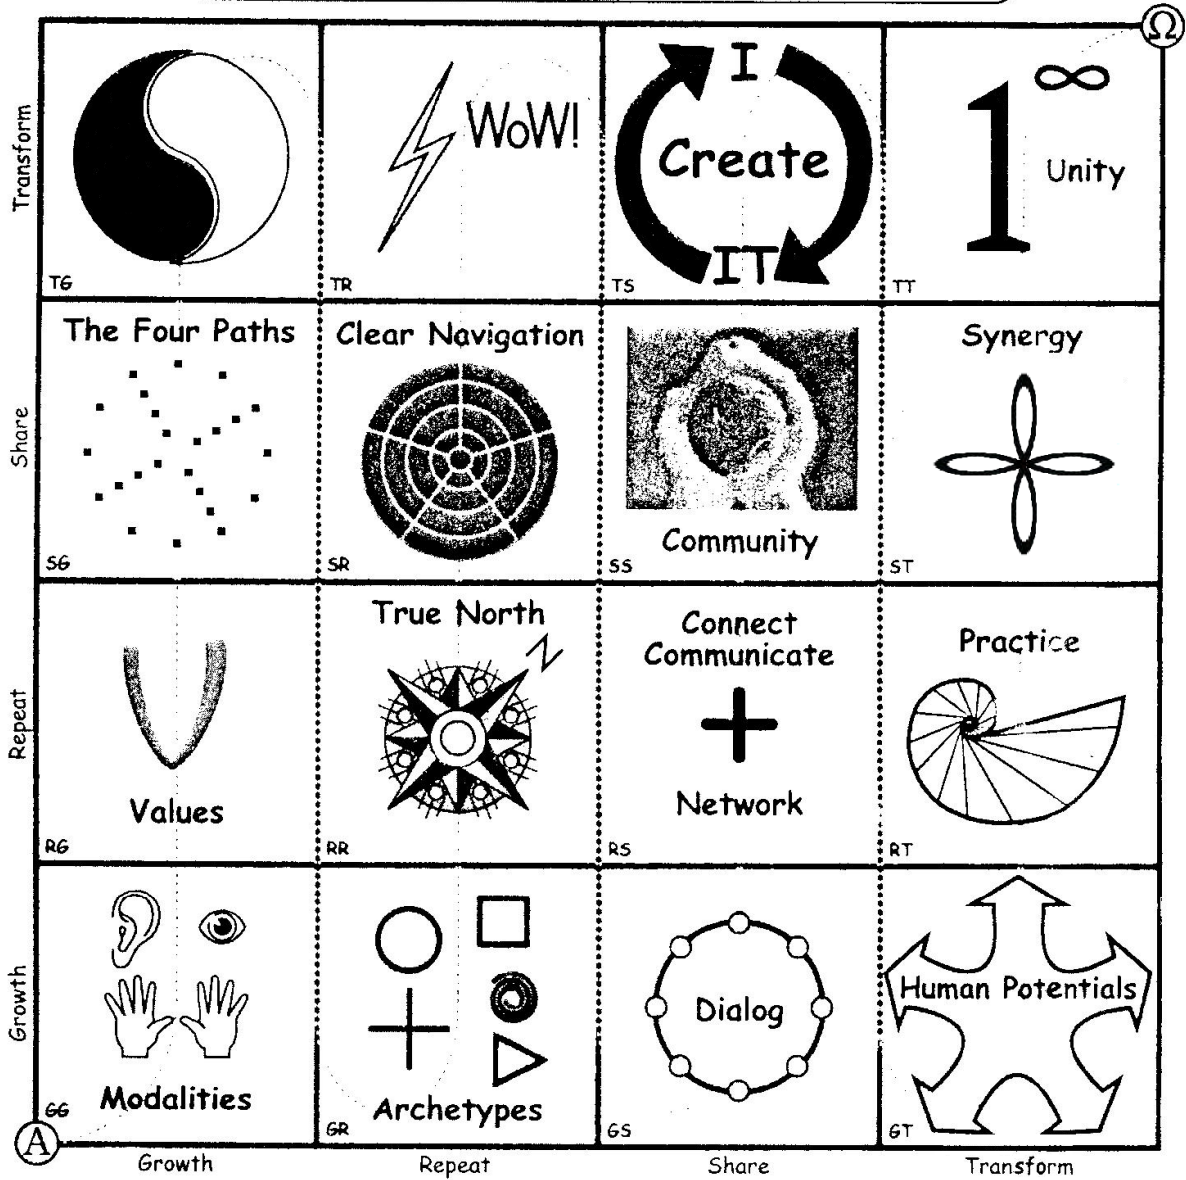

"Awaking America" is an interactive and spontaneous conversation with a revered social architect of our nation, Thomas Jefferson. Speaking from the year 2040, he addresses the challenges of our time and reveals the creative steps Americans will take in the coming decades to reinvent our politics, our economy and our relationship with all life. Mr. Jefferson combines his view of America's past, present and ideal future into a provocative, entertaining event we describe as a "transformance" since no one leaves unchanged.

## *Unity Scholars*

Unity Scholars is a non-profit organization of social inventors who host visionary people, projects and events dedicated to enhancing healthy human evolution. The purpose of the organization is to address global social and environmental problems by applying the knowledge gained from studying nature's universal patterns and by developing the creative potential of individuals and their communities. Unity Scholars comprises a worldwide web of people who share our dedication to this purpose and who support our endeavors through the exchange of ideas, teaching and participation in Unity Scholar's projects.

46th Annual *Futureum* Homebase CPSI 2000

Stages of Civilization Building

Let it be noted that CPSI pioneers ushered in the age of intentionality in June.
