Overview of Book	2
A System of Operationally Defined Concepts for Sociology	3
I. The Criteria of Definitions	4
II. The Quantic System of Concepts	4
A. The Field to Be Systematized	4
B. The Unit Situation	4
C. The Four Classes of Components	5
D. The Quantic Subclasses.....	5

1. The Spatial Exponent.....	5
2. The Temporal Exponent.....	6
3. The Indicatory Exponent	7
4. The Population Exponents	9
E. The Quantic Formula	11
F. The S-Theory	13
III. Experimental Testing ⁵ of This System of Concepts	14
A. Operationality	14
B. Reliability.....	14
C. Parsimony	15
D. Classification.....	18
Summary	20
Notes	23
Sociometry Delimited: Its Relation to Social Work, Sociology, and the Social Sciences	25
I. Confusion over "Sociometry"	26
II. Systematic Definitions of Sociometry and Related Disciplines.....	26
III. Separation of Sociometry and Sociatry.....	29
Notes	31
Introducing "Systemmetrics" for Evaluating Symbolic Systems	33
I. "Systemmetrics" Are Introduced For Measuring General Systems	34
A. A Preview of These Systemmetrics.....	34
B. The Need for Criteria to Evaluate Systems	34
II. Systemmetrics are Induced from Usage of Scientists and Philosophers	35
III. Systemmetrics are Deduced from Postulates of Speech Behavior	38
IV. Systemmetrics are Educued as Logical Products and Reduced To Percentage Indices.....	41
A. Procedure.....	41
B. Eight Syntactic Indices of Good Systems (Row 1 of Table 2)	41
C. Eight Pragmatic Indices of Good Systems (Row 2 of Table 2).....	44
D. Eight Semantic Indices of Good Systems (Row 3 of Table 2).....	46
V. Systemmetrics Can Produce a Metascience of Epistemology.....	48
Notes	53
"Scient-Scales" For Measuring Methodology	57
Abstract ₁	58
Abstract ₂	58
I. The Problem of Improving Methodology	59
II. Purpose of Project Scient-Scales.....	59
III. Postulations for a Theory of Methodology.....	61
IV. Procedures in Developing the Scales.....	63
A. Historical Note.....	63
B. Ten Strata of Researching Behavior	63
C. Ratings for a Hundred Item-Acts of Researching.....	65
D. Strategy in Developing the Scient-Scales	66
V. Pretests	67
A. Reliability.....	67
B. Validity	70
C. Training.....	72

VI. Propositional Findings	73
VII. Proposals Ahead	75
A. Potentialities of Scient-Scales	75
B. Limitations of Science Scales, 1961	76
C. Extensions of Scient –Scaling	80
D. Administrative Costs and Agencies	81
E. Self-Teaching with Scient-Scales.....	82
F. Terminology Proposals	83
References	87
Appendixes.....	89
Appendix I: Exhibit of Scient- Scales ¹⁹⁶¹ :Rating Sheet for Stratum I	90
Appendix II: Exhibit of The 90 Items of Strata II X.....	92
Appendix III: Twelve "Extended Scient-Scales"	97
Notes	101
L'effectif des Législatures d'après la Loi du Cube	103
I. La loi de la racine cubique appliquée aux Nations et aux Etats de la fédération américaine	104
II. Analyse de Données.....	104
A. Le Rapport entre la Législature et la Population	104
B. Indices de Corrélation	105
C. Interprétations Possibles	105
D. Variations de ce Rapport avec L'industrialisation	106
E. Note-sur D'autres Études.....	107
Appendice.....	109
Notes	111
The Size of Legislatures under the Cube Law	113
I. The Law of Cube Root Applied to Nations and to the States of the American Confederation	114
II. Analysis of Data.....	114
A. The Relationship between the Legislature and the Population	114
B. Correlation Indices	115
C. Possible Interpretations	115
D. Variations of this Ratio with Industrialization.....	116
E. Note - Other Studies	117
Appendix.....	119
Notes	121
Prefatory Materials for the Probable Acts of Men.....	123
Outline of Iowa Lectures	124
Readings for Seminar	125
Specifications for 2 Seminar Papers.....	128
Lecture #1 on: SPEECH ACTS	130
Lecture #2 on: REITERANT ACTS	131
Lecture #3 on: PERSONAL ACTS.....	132
Lecture #4 on: GROUP ACTS	134
Lecture #5 on: MASS ACTS	136
Lecture #6 on: COUNTER ACTS	138

Lecture #7 on: COSMIC ACT	139
Lecture #8 on: FUTURAL ACT	140
Exhibit A for Lecture #1: A Brief Statement Of the Transact Model*	142
Exhibit A for Lecture #2: The Reiteration Matrix in 4 Cycles	144
Exhibit A for Lecture #3: Listing 10 V's (= "things-valued") by institutions.....	145
Exhibit A for Lecture #4: 24 Hypotheses in Project Consensus	146
Exhibit B for Lecture #4: Conditions for Motivating Men	147
Exhibit C for Lecture #4: Likes" Study - Designing Stage	148
Exhibit A for Lecture #5: The Logistic Law of Interaction with 52 Variables-Controlled....	150
Exhibit A for Lecture #6: The Counteractance Model.....	152
Exhibit A for Lecture #7: Diagramming the Evolutionary ages, masses and rankings of the various sciences	156
Human Dimensions	159
I. On the Genesis of Integrative Concepts	160
II. On a Structure of Integrative Concepts	161
A. The "Sectors," i.e., Classes of Substantive Concepts	162
B. The "Powers," i.e., Some of the Classes of Formative Concepts –	164
III. On Some Functions of Integrative Concepts	165
A. The Subsuming Function	165
B. The Ordering Function	166
C. The Generating Function	167
IV. Summary	167
Tables	169
Table 1: A Hierarchy of the Sciences	170
Table 2: The Sectors and Powers Cross-classification.....	171
Table 3: Some Compound Concepts in Physics (upper entries) and in Sociology (lower entries)	172
Table 4: 20 Dimensions of "Valuance"	173
Relevant Bibliography of the Author.....	174
Notes	175
An Alphabet of Meanings	177
I. Man's Communicational Needs are Expanding	178
II. Man's Language Need Matching Expansion.....	180
III. An Alphabet of Meanings Can Expand Language Well	181
IV. An Embryo Alphabet can now be Exhibited.....	183
V. What may be its Costs and Consequences?	194
References	198
Notes	199
Of What Use Is Dimensional Sociology.....	201
I. The Issue of Utility	202
A. Calculation of Sociological Unknowns.....	202
B. Proving of Sociological Theorems and Corollaries	204
C. Checking Sociological Formulations	205
D. Operational Defining of Sociological Concepts	205
E. Systematizing Fields	206
1. The field of general sociology.....	206

2. The field of statistics	207
3. The field of economics	207
4. The field of all the sciences.....	208
II. The Precision Issue	208
A. Precisionizing Quantities.....	209
B. Making Qualities Explicit.....	209
C. Precisionizing Qualities.....	211
D. Specifying Limits and Standards.....	211
III. The Parsimony Issue	212
A. The S-symbols.....	212
B. Experimental Comparison with the Symbols of Logistics.....	212
C. Experimental comparison with statistical formulae	213
D. Comparison with Current Verbal Concepts.....	213
IV. The Issue of Postulates.....	213
A. On the Relation of the S-system to Lundberg's Postulates.....	213
B. On Records as the Datum for Sociological Analysis.....	214
C. On Sociological Laws and Probability.....	214
D. On the Taboo on Borrowing from Other Sciences	215
E. On Learning the Rules for S-Formulae	217
Notes	219
Raising Research-To-Teaching Ratios	225
I. Why Raise The Ratio?.....	226
II. What Does The Ratio Involve?.....	227
III. How Can The Ratio Be Raised?.....	227
A. Differentiate a professional major	227
B. Accredite "Research Courses".....	228
C. Organize long-term team projects.....	229
D. Seek grants for research	229
E. Give higher priority to research.....	230
F. Standardize a citizenship major in sociology.....	231
G. Hold the number of courses constant.....	233
H. Reduce the number of sections	233
I. Use TV-tapings	234
J. Equalize graduate training in research and teaching.....	235
Notes	237
Ten Semantic Tangles and the Threat of War	239
I. Ten Tangles.....	240
II. Six "Factor" Tangles of Context.....	240
1. Person tangles	240
2. Period tangles.....	240
3. Place tangles	240
4. Purpose tangles	240
5. Panorama tangles.....	241
6. Prose tangles	241
III. Four "Facet" Tangles of Content.....	243
7. Case tangles.....	243

8. Degree tangles	243
9. Class-tangles	244
10. Level tangles	244
Notes	247
Proposals to Develop Statistical Laws of Human Geography	249
I. The Need – as felt by a sociologist	250
II. The Tools – as developed in this century.....	250
III. The Proposals – as long and short term projects.....	251
IV. The Limitations – as to spots and units, indices and powers.....	253
V. The Execution – as to agencies and funds.....	254
VI. The Theory – as dimensionally systematized	255
VII. Some Discussion – as to questions raised by critics	256
References	260
Notes	261
Calendar Reform.....	263
Notes	269
An Isosceles Distribution of Material Entities.....	271
I. The Scales of Mass, Time, and "Rank" of Science	272
II. The Isosceles Distribution of All Material Entities.....	273
III. Implications of the "Mass-Time Triangle."	275
Figures.....	279
Notes	285
The Epicosm Model for the Material and Mental Universe	287
I. The SPECIFICATIONS.....	288
II. The FEATURES.....	288
III. The IMPLICATIONS	291
On Producing the Epicosm Model to Mirror the Cosmos.....	293
I. Input.....	294
II. Thruput	294
III. Output.....	294
Note:	295
Deducing a Reiterant Model for the Material and Mental Universes	297
I. What Universes?.....	298
II. Who Deduces What?	298
III. Why Model?.....	298
IV. Where to Start in Reiterating?	299
V. Which to Prefer among Reiteratings?.....	300
VI. When to Stop the Reiteratings?.....	300
VII. How to Summarize the Reiterant Epicosm Model?	301

Overview of Book

This book was originally intended to be one of a set of four themed volumes covering the life's work of Dr. Dodd for publication by an academic publisher around 1970. Unfortunately, the project was cancelled. This is volume 2 of Dodd's papers on Interactive Symbolizing.
